

SCRR 35 / SCRR 35 T

CAPACITIVE SENSORS

Model	SCRR 35	SCRR 35T
Application	Capacitive sensores are designed for working with the relay PNAS/T as max. and/or	
	min. level control with products like grain, dust, granulates, chemicals, etc.	
Body material	PVC	PTFE
Colour	Red	White
Process connection	Thread 1" 1/2 G	
Electrical connection	Two wires cable, length 5 m.	
Voltage	Max. 30 V.	
Frequency	Max. 500 Hz.	
Consumption	Activated: Max. 5 mA.	
	Deactivated: Max. 15 mA.	
Sensitivity	Adjustable, by means of a 15 turns potenciometer.	
Operat. Temperature	-15+70 °C.	
Action Distance	412 mm. Led indicating sensor activated.	
Pressure	10 Kg/cm² at + 60 °C.	
Cable Length	< 200 m.	
Protection	IP 65
